

Data provenance

These data have been sourced from the [Swedish statistical database](#) (SCB) on 2021-09-28

Data were exported using the Excel (xlsx) with code and text column option, the resulting spreadsheet saved using the filename as downloaded. The following steps were then done to convert to CSV:

1. Select a portion of the file that contains the data and copy it
2. Paste into a new spreadsheet
3. Add headings for columns
4. Replace all commas with --
5. Save as .xlsx
6. Export as UTF-8 .csv
